My 0 to 20 number line

Classroom Pixie

$7 + 4$ – remember to start at the biggest number and count on. Or you can draw 7 dots and then 4 dots. You are trying to find out how many altogether. If you have lego or blocks at home, you can use them to help you.

$$5 + 4 =$$

$$10 + 3 =$$

$$3 + 3 =$$

$$8 + 2 =$$

$$15 + 1 =$$

Take away – remember when we take away we jump backwards.

$7 - 3 = 4$ - the answer will be smaller. Start at 7 jump backwards 3 and you land on 4.

$$11 - 6 =$$

$$6 - 4 =$$

$$7 - 1 =$$

$$12 - 1 =$$

$$19 - 2 =$$
