

# Year 4 – Term 6

I know the division facts for the 12 times table.

By the end of this half term, children should know the following facts.

The aim is for them to recall these facts instantly.

$$12 \div 12 = 1 \quad 12 \div 1 = 12$$

$$24 \div 12 = 2 \quad 24 \div 2 = 12$$

$$36 \div 12 = 3 \quad 36 \div 3 = 12$$

$$48 \div 12 = 4 \quad 48 \div 4 = 12$$

$$60 \div 12 = 5 \quad 60 \div 5 = 12$$

$$72 \div 12 = 6 \quad 72 \div 6 = 12$$

$$84 \div 12 = 7 \quad 84 \div 7 = 12$$

$$96 \div 12 = 8 \quad 96 \div 8 = 12$$

$$108 \div 12 = 9 \quad 108 \div 9 = 12$$

$$120 \div 12 = 10 \quad 120 \div 10 = 12$$

$$132 \div 12 = 11 \quad 132 \div 11 = 12$$

$$144 \div 12 = 12 \quad 144 \div 12 = 12$$

## Top Tips

The secret to success is practising little and often. Use time wisely. Can you practise these KIRFs while walking to school or during a car journey?

You don't need to practise them all at once - perhaps you could have a fact family of the day. If you would like more ideas, please speak to your child's teacher.

Can you write the out the fact families?
